

GREENWORX CLEANING SOLUTIONS

MicroFloc D60

Microzyme D60 Degradation of organic waste including animal waste, septic tanks and human effluent. Also helps to remove Fats , Oils and Grease in grease traps.

Products/Ranges:	Various products-see comments (page 4)
Product Stages Assessed:	Whole of life +re-use potential
Product Type:	Cleaning Product
Licenced Site/s:	Kya Sands, South Africa
Licence Number:	GRE:CP10:2023:PH
Licence Date:	29th May 2023
Valid To:	29th May 2024
Standard:	GGT International Cleaning Product v1.1
Screening Date:	06th April 2023
PHD URL:	https://www.globalgreentag.co.za/getfile/12359/phd.pdf

PHD Summary	Inventory Threshold:	Inventory Method:
Percentage Assessed: 100%	100ppm Product Level	Nested Materials

- ✔ Meets "Green Cleaning" requirements for Green Star.
- ✔ Meets WELL™ v1.0 Features 97: Material Transparency and WELL™ v2.0 Features – X07: Material Transparency and X08: Material Optimisation, X11: Cleaning Products & Protocols (Part2)
- ✔ No worker exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- ✔ No user exposure to Carcinogens, Mutagens, Reproductive Toxicant or Endocrine Disruptors.
- ✔ No environmental exposure to Carcinogens, Mutagens, Reproductive Toxicants or Endocrine Disruptors.

Declared by:
Global GreenTag
International Pty Ltd

David Baggs
CEO & Program Director
Verified compliant with:
ISO 14024 & ISO 17065

1.0 Scope

The Global GreenTag International (GGT) Product Health Declaration (PHD) has been designed to provide an additional level of service to the green product sector in facilitating an easier understanding of both the hazard and risk associated with any certified products and is intended to indicate:

- Chemical hazards of both finished product and unique ingredients to a minimum level of 100ppm for final product throughout the product life cycle, (including any VOC or other gaseous emissions);
- An assessment of exposure or risk associated with ingredient handling, product use, and disposal in relation to established mitigation and management processes;

It is not intended to assess:

- i. substances used or created during the manufacturing process unless they remain in the final product; or
- ii. substances created after the product is delivered for end use (e.g., if the product unusually degrades, combusts or otherwise changes chemical composition).

GGT PHDs are only issued to products that have passed GGT Standards' certification requirements. The Level of Assessment (BronzeHEALTH, SilverHEALTH GoldHEALTH or PlatinumHEALTH) rating relates ONLY to GGT Standard Sustainability Assessment Criteria 3, and is declared separately to the overall Bronze, Silver Gold or Platinum Green Tag Certification Mark Tier Levels.

1.2 Preparing an PHD

GGT PHDs are prepared using Hazard Classifications from the UN Globally Harmonised System of Classification and Labelling of Chemicals (GHS) and as an outcome of a successful Application for Certification. Assessments are undertaken by GGT Qualified Exemplar Global Lead Auditors and subsequently accepted for Certification by the GGT Program Director (also a Qualified Exemplar Global Lead Auditor) under the Personal Products Standard v1.0/1.1, and Cleaning Products Standard v1.1/1.2 and above Program Rules.

1.3 External Peer Review

Every GGT PHD is independently peer reviewed by an external Consultant Toxicologist and Member of the Australian College of Toxicology & Risk Assessment.

2.0 Declaration of Ingredients

Where a manufacturer wishes recognition under a rating program that requires transparency of ingredients such as LEED v4.0 & v4.1, WELL v1 & v2, Living Building Challenge, Estidama etc., the following information is declared from audit:

Colour	Ingredient Name
Green	Ideal- Low No concerns- ingredient safe at any level based on current known science, % of the ingredient, and relevance to use context'
Yellow	Medium to Low Hazardous Ingredient with minor level of "Issue of Concern" depending on % of the ingredient, hazard level, and relevance to use context'
Orange	Moderate Hazardous ingredient with "Issue of Concern" or "Issue of Concern Minimised" depending on % of the ingredient, hazard level, and relevance to use context'
Red	Problematic (Red): Target for Phase Hazardous ingredient with 'Red Light" or "Red Light Minimised" concern depending on % of the ingredient, hazard level, and relevance to use context'
Dark Red	Very Problematic (Dark Red): Target for Phase Very Hazardous ingredient with 'Red Light Exclusion" concern depending on % of the ingredient, hazard level, and relevance to use context'
Grey	Uncategorised Not able to be categorised due to lack of toxicity impact information.
Black	Banned Ingredients Petroleum, Parabens plus a wide range of compounds stipulated by cleaning/personal products standards.

Global GreenTag International Pty Ltd (Global GreenTag) is not a medical professional organisation. Global GreenTag does not purport to provide medical advice, and makes no warranty, representation, or guarantee regarding the declaration that it provides in relation to any allergies, chemical sensitivities or any other medical condition, nor does Global GreenTag assume any liability whatsoever arising out of the application or use of any product or piece of equipment that has been chemically assessed by Global GreenTag.

The chemical assessments carried out provide transparent information peer reviewed by a consultant toxicologist regarding the chemical make-up and ingredients of certain materials and products, but such assessments are not to be taken as any form of medical assessment or health advice and are not targeted towards providing specific solutions to allergenic conditions or any other type of medical concerns.

Users must carry out their own investigations if they are concerned about specific medical conditions and the impact of certain products or ingredients in relation to specific medical concerns.

Global GreenTag takes no responsibility and is not liable in any way with respect to any medical or health issues arising from a person's use of materials or products that have been chemically assessed by Global GreenTag. Global GreenTag shall not be liable for any direct, indirect, punitive, incidental, special or consequential damages to property or life whatsoever, arising out of or connected with the use or misuse of any materials or products that have been assessed by Global GreenTag.

Ingredient Name	CAS Number OR Function	Proportion in finished product	GHS, IARC & Endocrine Category	Exposure Category	Ingredient Assessment	Whole Of Life Assessment	In Use Health Assessment	Comment
Bacillus Strains	Bio-enzyme	10-15%	NONE	NONE				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
OptimusBio VOF Liquid	Bio-augument	3-10%	N/A	N/A				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Maize	9005-25-8	45-55%	NONE	NONE				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Brown Dye	4553-89-3	0-5%	NONE	NONE				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Sodium chloride	7647-14-5	10-20%	H317 H413 H335	Skin irritant, Toxic to aquatic life, Respiratory irritant				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Sugar/sucrose	57-50-1	0-5%	NONE	NONE				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Quinoline Yellow	8003-22-3	0-0.1%	H317	Skin Damage				The substance may cause harm when in contact with skin. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Brilliant Blue Lake	68921-42-6	0-0.1%	NONE	None				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Lipase Enzyme	9001-62-1	2-4%	H334	Respiratory irritant				The substance may cause harm when in inhaled. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Protease Enzyme	9014-01-1	2-4%	H334	Respiratory irritant				The substance may cause harm when inhaled. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage,the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no

Sodium Sulphate	7757-82-6	60-75%	NONE	NONE				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Sodium Dodecyl Benzene Sulphonate	25155-30-0	15-25%	H318, H335, H315, H302	Eye damage, Organ irritant, Skin irritant and ingestion issues.				The substance may cause harm when in contact with skin, eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage, the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Proprietary	Antifoam	0.5-1%	N/A	N/A				Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. Recycled Content: None Nanomaterials: No
Phenoxyethanol	122-99-6	0-1%	H302, H318, H335	Ingestion, Eye damage and organ irritant				The substance may cause harm when in contact with organs, eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage, the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no
Alkyl Polyglucoside surfactant	68515-73-1	0.5-2%	H318	Eye Damage				The substance may cause harm when in contact with eyes. Greenworx has ISO 9001,14001 and OHS policy which reduce harmful impacts to factory workers in contact with substance using proper PPE. In use stage, the product label states the use of proper gloves and usage dose is recommended thus minimizing risk to the user. Recycled Content: None Nanomaterials: no

Comments:

All products certified under this PHD are mentioned below:

Microzyme D60 25 Kg Bulk Animal House Flooring	Microzyme D60 25 Kg Bulk	Microzyme D60 Green 1 Kg Bucket (FemFresh) - (Baby Poo Bag)
Microzyme D60 Green 5 Kg Bucket	Microzyme D60 Green Bulk 25 kg	Microzyme D60 Green Bulk and fill 500 gram container (Pet Shake-Shake)
Microzyme D60 100 gram Sachet	Microzyme D60 Green 100 Gram Sachets	Microzyme D60 Compost Activator
MicroFloc D60	Microzyme FOG Free Bulk 25 kg bag	Microzyme FOG Free 50 gram Sachet
Microzyme FOG Free 5kg Bucket	FOG FREE Bio Disc 100 gram x 5kg bucket (50 Discs)
