IMPORTANT NOTICE

Green Worx CS contends that this product is manufactured according to and conforms to the terms and conditions as stipulated in SABS/TC 1006/SC 02 "Detergents, soaps, cleaners, degreasers and oil spill dispersants and absorbents" including SANS CD 1604ED1.1:Biologically enhanced cleaning and degreasing products.

Bio Tech - Probiotic Premium Pet Shampoo (for dogs)
"Clean on the Outside - Healthy on the Inside"

Bio Tech Premium Pet Shampoo is a **scientifically formulated**, man friendly, animal friendly and environmentally friendly blend of enhanced ingredients to deeply clean and condition your pet's hair coat, while also promoting digestive health through its special blend of added Probiotics.

What are Probiotics?

Probiotics are beneficial microorganisms that are believed to provide health benefits. Several mechanisms of action have been proposed to explain how probiotic organisms act within a host to yield beneficial effects:

- First, they are thought to work to promote digestive health and maintain digestive balance. By replenishing and maintaining healthy intestinal flora, harmful microbes are naturally reduced.
- Second, they are thought to provide immunomodulation of the host by increasing antibody or cytokine production, modulation of phagocytosis, and by stimulation of nonspecific immunity.

As dogs occasionally groom themselves and lick their paws, the act of self-grooming allows intake of these beneficial microbes, thus contributing to a healthier gut, and modulation the host's immune system.

The microbial consortium used in Bio Tech Pet Shampoo (*60 million colony forming units/ml of shampoo*) also work directly on the outside by consuming debris and animal body secretions to keep coats healthier; promoting healing of rough, flaky, oily, or irritated skin.

Don't Probiotics simply wash off when a dog is rinsed?

No, the microbial consortium utilized in Bio Tech attach themselves to hair follicles, leaving sufficient numbers (through electro-chemical bonding) adhering to the coat of dogs even after rinsing. Each ml of Bio Tech Pet Shampoo contains approximately 60 million colony forming units of beneficial microbes, all of which are unique bio-level safety one DNA finger-printed microorganisms..

Calming Scent

The specially formulated fragrance in Bio Tech Pet Shampoo has a known calming and mood-lifting effect experience following bathing.

Hypoallergenic

The pH adjusted formulation of proprietary ingredients promotes regeneration of rough, flaky, oily, or irritated skin.

Biodegradable

All cleaning ingredients are made from natural and or organic natural raw materials, which are readily biodegradable.

Ingredients

Contains a proprietary blend of special ingredients; plant based surfactants, Probiotics for digestive and skin health, and numerous other proprietary ingredients to deeply clean and condition your dog's hair coat.

Product Features and Benefits

- Scientifically Formulated
- Probiotic Dog Shampoo
- Hypoallergenic
- Calming, mood lifting fragrance
- Potentially Promotes Digestive Health
- Safe plant based surfactants to deeply clean and remove oils
- All probiotics contained in this preparation belong exclusively to the genus *Bacillus*. These strains are non-pathogenic to plants, animals or humans.
- All are designated Class 1 according to Council Directive 90/679/EEC (as amended by Council Directive 93/88/EEC) and all other recognised classification systems for microorganisms.
- 2 year shelf-life
- Biodegradable ingredients in the formulation
- Sulfate Free. Does not contain any animal derived ingredients
- pH adjusted formula promotes regeneration of rough, flaky, oily, or irritated skin
- Shelf-life: - Two years; maximum loss of 1.0 log at recommended storage conditions
- This special formulation does not contain bleach and cleans thoroughly, adding life to the coat as its gentle on the skin, lathers richly and the pH is neutral.

How Should I Give My Dog A Bath?

- Brush your dog before a bath. Matted hair holds water, leaving your dog with irritated skin. ...
- Use lukewarm water. ...
- Talk to your pet in a calm and reassuring voice. ...
- Product dilution ratio - 4 parts water to 1 part shampoo
- Rinse well. ...
- Air-dry. ...
- Reward your dog.
