

BIO CLEANING SOLUTIONS

Odorite™ P-Disc + Holder (Bio Dome)

**A premium product that eliminates organics found in urinals and drain lines
Eliminating stale urinal odours 100% and descaling lime scale naturally**

Odorite™ P-Disc + Holder is an aesthetically pleasing, well-designed product that will provide exceptional performance in keeping urinal systems and toilets odourless and lime scale free and blocked pipes trouble free - a must for the hygiene eco conscious person, hygiene cleaning contractor and green building owner. The product contains no harmful chemicals and no paradichloro-benzene (a substance banned in most USA states, Europe and Austral Asia since 1st January 2009).

Odorite™ P-Disc + Holder degrades and eliminates organics found in the urinal, toilet and drain lines. Regular use of **Odorite™ Bio Dome**

maintains a cleaner and odour-free system. It maintains effective microbe and enzyme activity in septic systems by eliminating odours caused by incomplete digestion of malodorous volatile fatty acids. Regular use of **Odorite™ Bio Dome** will significantly reduce build-up of lime scale, uric acid crystals in the plumbing, keeping plumbers bills to a minimum, while reducing odour.

The **Odorite™ Bio Dome** will penetrate cracks, crevices and pores of surfaces where organics accumulate, actually removing the organics (VOC) to leave a visually cleaner surface. Provides long-term odour control, removing the organics that cause odours and prevents the return of odour-causing compounds.

DATA SHEET

Features	
•	A stable consortium of safe Bacillus spores
•	Lime scale degrader
•	Production of multiple enzymes providing a wide range of degradation capabilities
•	A synergistic blend that works in concert to provide superior performance across multiple applications
•	Excretion of high levels of amylase, cellulase, lipase and protease enzymes
•	Ability to work under aerobic and anaerobic conditions

PRODUCT CHARACTERISTICS

- **Heavy Metals** : less than 50 ppm
- **Aflatoxins** : absent
- **Antibiotic Activity** : absent

- **E. Coli** : absent in 0.1g
- **Total Bacterial Count** : not less than $2 \times 10^7/g$

Recommended application/feed rates:

A Ready-to-Use Product
